AMENDMENT TO THE ARTICLES OF INCORPORATION TO INCREASE THE
NUMBER OF AUTHORIZED COMMON STOCK FROM 50,000,000 SHARES TO
250,000,000 SHARES AND TO AUTHORIZED THE ISSUANCE OF 50,000,000
PREFERRED SHARES

REASON FOR THE INCREASE IN AUTHORIZED COMMON STOCK AND TO AUTHORIZED PREFERRED STOCK

The Company has previously announced its intention to acquire a resource based project with substantial proven reserves. The board of directors has determined that the best way to finalize the acquisition is to have available common and preferred shares to be issued in connection with the acquisition.

At the present time the Company has 50,000,000 common shares authorized of which 48,272,532 are issued and outstanding. Management believes that if authorized common stock is increased to a total of 250,000,000 common shares, sufficient common shares will be available to complete the transaction. Management also believes that preferred stock should also be available for issuance in case it is needed in the transaction. Accordingly, management has proposed that 50,000,000 preferred shares be authorized for issuance by the board of directors. The amendment to the articles of incorporation will specify that that board of directors shall have authority to designate the rights and preferences of the preferred shares or any series thereof prior to the issuance of any preferred shares. These designations may give the holders of preferred shares rights that are superior to the holders of common shares.

The additional authorized shares, both common and preferred, may also be used in the future for additional acquisitions and/or for capital raising purposes, or to be issued to employees, consultants and advisors of the Company in payment for services rendered for the Company. The Company may also issue stock to settle debts with suppliers and creditors.

The authorization of additional capital in the form of both common and preferred stock pursuant to this proposal will allow the board of directors to issue the additional authorized shares pursuant to their discretion. The issuance of these shares can have the effect of diluting the holdings of shareholders who hold shares prior to the new issuances of stock. The board of directors believes that the increase in the authorized common shares and the authorization of preferred shares will be well merited since it may result in the Company building a core of income-producing assets. The board of directors believes that

-6-

over the long term the impact of these income-producing assets may result in an increase in the company's valuation and stock price such that the dilution arising from the issuance of additional equity capital may be more than offset by the increase in valuation such that stockholders may see an increase in the stock price as a result.

THE BOARD RECOMMENDS A VOTE IN FAVOR OF THE AMENDMENT TO THE ARTICLES OF INCORPORATION TO INCREASE AUTHORIZED COMMON SHARES AND TO AUTHORIZED PREFERRED SHARES.

PROPOSAL II

AMENDMENT TO THE ARTICLES OF INCORPORATION TO CHANGE
THE NAME OF THE CORPORATION.

REASON TO CHANGE THE NAME OF THE COMPANY

Since in or about November, 2000, the Company has been in the business of providing turnkey private label Internet solutions to businesses and private organizations that desire to affiliate with a customer base via the Internet. In this way, the Company sought to create for itself a recurring revenue stream through the sale of subscription-based services. The Company also attempted to sell individual components of its services to established Internet Service Providers at pricing that would be profitable for both parties, including wholesale dialup port access and back-office services for ISP's.

Even though the business plan of the Company called for the Company to provide turnkey private label Internet solutions to businesses and private organizations that desired to affiliate with a customer base via the Internet, the business did not developed as rapidly as had been anticipated. The board of directors ultimately decided that it was not likely that this business plan could be developed by the Company to commercial viability.

The Company has now decided to acquire a resource based project with substantial proven reserves. In light of this, the board of directors has determined that it is in the best interest of the Company to change the name of the Company to a name that will more accurately reflect the future business operations of the Company. At the present time it is uncertain as to exactly what project or projects will be acquired and so it is not possible to know exactly what name will be best for the Company. If this proposal number II is approved by the shareholders, it will grant to the board of directors the authority to change

the name of the Company to a name, which in the discretion of the board of directors is reflective of the new business eventually entered into.

By changing the name of the Company from CUSTOM BRANDED NETWORKS, INC., the Company will lose the good will that has been established and is represented by that name. The board of directors believes however that the amount of good will that will be lost is negligible because the Company was ultimately unsuccessful in establishing the business represented by that name. In addition, the board of directors does not believe the loss of the name will damage the Company because it no longer intends to pursue the business direction suggested by that name.

THE BOARD RECOMMENDS A VOTE IN FAVOR OF THE AMENDMENT TO THE ARTICLES OF INCORPORATION TO CHANGE THE NAME OF THE CORPORATION AS CHOSEN BY THE DIRECTORS.
