NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2000
(Unaudited)
(Stated in U.S. Dollars)

1. BASIS OF PRESENTATION

The unaudited financial statements as of September 30, 2000 included herein have been prepared without audit pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States generally accepted principles have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair a presentation have been included. It is suggested that these financial statements be read in conjunction with the June 30, 2000 audited financial statements and notes thereto.

2. NATURE OF OPERATIONS

Exploration Stage Activities

The Company is in the process of exploring its mineral property and has not yet determined whether the property contains ore reserves that are economically recoverable.

The recoverability of amounts shown as mineral property is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, and the ability of the Company to obtain the necessary financing to place the property into production, and upon future profitable operations, none of which is assured.

3. SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgement.

The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Consolidation

These financial statements include the accounts of the Company and its wholly owned Canadian subsidiary, Aquistar Ventures Inc.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Mineral Property and Related Exploration Expenditures

The Company capitalizes all option payments on mineral properties in which it has a continuing interest to be amortized over the recoverable reserves when a property reaches commercial production. On abandonment of any property, applicable accumulated mineral property costs will be written off.

Exploration expenditures are expensed as incurred.

To date, none of the Company's properties have reached commercial production.

c) Office Equipment and Amortization

Office equipment is recorded at cost and amortized at a rate of 20% per annum on the declining balance basis.

d) Income Taxes

The Company has adopted Statement of Financial Accounting Standards No. 109 - "Accounting for Income Taxes" (SFAS 109). This standard requires the use of an asset and liability approach for financial accounting and reporting on income taxes. If it is more likely than not that some portion of all of a deferred tax asset will not be realized, a valuation allowance is recognized.

e) Foreign Currency Translation

The Company's subsidiary's operations are located in Canada and its functional currency is the Canadian dollar. The financial statements of the subsidiary have been translated using the current method whereby the assets and liabilities are translated at the year end exchange rate, capital accounts at the historical exchange rate, and revenues and expenses at the average exchange rate for the period. Adjustments arising from the translation of the Company's subsidiary's financial statements are included as a separate component of shareholders' equity.

f) Financial Instruments

The Company's financial instruments consist of cash, Goods and Services Tax recoverable, and accounts payable.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

g) Loss Per Share

The loss per share is calculated using the weighted average number of common shares outstanding during the period.

4. MINERAL PROPERTY

Item 2. Management's Discussion and Analysis or Plan of Operations

The Company is a natural resource company engaged in the acquisition, exploration and development of mineral properties. The Company, through its wholly own Canadian subsidiary Aquistar Ventures Inc., has an interest in a mineral property located in Ontario, Canada, and intends to carry out exploration work on this property in order to ascertain whether it possesses commercially developable quantities of gold and other precious minerals.

For the next 12 months, management of the Company plans to satisfy its cash requirements by raising additional funds by way of private placements and/or a public offering, to satisfy working capital needs and Phase 1 of the work program intended for its Mineral Property. The Company will assess whether to proceed with Phase 2 of the exploration program upon completion of Phase 1 and an evaluation of the results of the Phase 1 exploration program.

Aquistar Canada obtained an engineering report on its Mineral Property, dated July 1, 1997. The Report summarizes the exploration and development history of the Property, the geology of the Property and the proposed exploration and development program for the Property.

The Report states that follow-up surveys are required which will include detailed magnetic coverage with the more advanced "walking mag" continuous profiling method, further assessment and definition of the gradient IP and resistivity anomalies utilizing the multiple-gradient "realsection" technique, trenching, geochemistry, soil and/or vegetation and diamond drilling. The budget for this Phase 1 program is estimated at CDN \$182,000.

Phase 2 of the Report is contingent on the results of Phase 1 and will include further drill testing on the Property, as required, estimated to cost CDN \$300,000. The Company has not purchased or sold any plant or significant equipment and does not expect to do so in the foreseeable future.

The Company currently has no employees, and does not expect to hire any employees in the foreseeable future. The Company conducts its business through agreements with consultants and arms-length third parties.

CAUTIONARY STATEMENT FOR PURPOSES OF THE "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995
