Certificate of Amendment to Articles of Incorporation
For Nevada Profit Corporations
(Pursuant to NRS 78.385 and 78.390 - After Issuance of Stock)

1. Name of corporation:

Thorium Power, Ltd.

2. The articles have been amended as follows: (provide article numbers, if available)

Article 1 is hereby amended to read: "The name of this corporation is Lightbridge Corporation."

Article 4 is hereby amended by adding the following paragraph as the last paragraph of Article 4:

"Effective as of the filing date of this Certificate of Amendment, each thirty (30) shares of the issued and outstanding Common Stock, \$0.001 par value, of the Corporation shall be reverse split into one (1) share of Common Stock of the Corporation. This reverse split shall affect only issued and outstanding shares. Each record and beneficial holder who would receive a fractional share as a result of the reverse stock split shall receive in lieu thereof a full share of Common Stock."

3. The vote by which the stockholders holding shares in the corporation entitling them to exercise a least a majority of the voting power, or such greater proportion of the voting power as may be required in the case of a vote by classes or series, or as may be required by the provisions of the articles of incorporation* have voted in favor of the amendment is: 65%

4. Effective date of filing: (optional)

(must not be later than 90 days after the certificate is filed)

5. Signature: (required)

X

Signature of Officer

*If any proposed amendment would alter or change any preference or any relative or other right given to any class or series of outstanding shares, then the amendment must be approved by the vote, in addition to the affirmative vote otherwise required, of the holders of shares representing a majority of the voting power of each class or series affected by the amendment regardless to limitations or restrictions on the voting power thereof.

IMPORTANT: Failure to include any of the above information and submit with the proper fees may cause this filing to be rejected.

This form must be accompanied by appropriate fees.

Thorium Power, Ltd. Announces Completion of a 1-for-30 Reverse Stock Split

MCLEAN, Va. -- Sept. 25, 2009 – Thorium Power, Ltd. (OTCBB: THPW), the leading developer of non-proliferative nuclear fuel technology and provider of comprehensive advisory services for civil nuclear energy programs, today announced the completion of a 1-for-30 reverse stock split of the Company's common stock, effective for shareholders of record on September 18th, 2009. The reverse stock split will be effective for trading purposes on or about September 28, 2009.

Thorium Power shareholders will receive one new share of the Company's common stock for every 30 shares held. The reverse split will reduce the number of shares issued from 301.8 million to approximately 10 million, and will not negatively affect any of the rights that accrue to holders of Thorium Power common stock, convertible debentures, options, deferred stock units or other securities convertible into the company's common stock.

"The completion of the reverse split is an integral step in the process of our securing a listing on NASDAQ, and that listing will be another important milestone in our development," stated Seth Grae, Thorium Power's President and CEO. "We're an emerging player in the growing global nuclear energy industry, we've expanded our strategic partnerships and relationships through our consulting work in the UAE and work on the nuclear fuel technology side with Areva, and we have a depth of talent that is widely recognized and respected in the industry. All of these factors, together with this reverse split, future NASDAQ listing and corporate name change to Lightbridge, will permit our company and stock to attract more attention from the investment community and provide investors a more viable opportunity to follow our progress."

About Thorium Power, Ltd.

Thorium Power is a pioneering U.S. nuclear energy company based in McLean, VA. The Company develops non-proliferative nuclear fuel technology and provides comprehensive advisory services for emerging nuclear programs based on a philosophy of transparency, non-proliferation, safety and operational excellence. Thorium Power's technologies, which are aimed at both existing and future reactors, include nuclear fuel designs optimized to address key concerns regarding traditional nuclear power, including proliferation of weapons usable nuclear materials and reduction of nuclear waste. The Company maintains a seasoned team with unparalleled experience from the nuclear energy industry, regulatory and government affairs, non-proliferation and diplomacy. It leverages those broad and integrated capabilities by offering consulting and strategic advisory services to commercial entities and governments with a need to establish or expand nuclear industry capabilities and infrastructure. Thorium Power also maintains long-standing relationships with leading Russian nuclear entities, providing expert resources and facilities for its nuclear fuel development activities. The Company seeks and forms partnerships with participants in the global nuclear industry, allowing it to address a wide range of international opportunities.
