Seth Grae, President & Chief Executive Officer of Lightbridge Corporation, commented, “The benefits of nuclear energy have come into focus over the last year like never before. The global growth of energy demand and the need for national energy security continue to drive momentum towards more nuclear industry-friendly policy decisions. Countries and companies worldwide are setting targets for achieving net-zero carbon emissions. The International Atomic Energy Agency estimates that reaching net-zero emissions will require more than doubling current nuclear power generating capacity.”

“Lightbridge is helping lead the way. We are making significant progress in developing Lightbridge Fuel™, which will drive shareholder value creation, but there is still much work to do. With your support, we are confident that Lightbridge will play a central role in the significant growth of nuclear power to meet energy security and climate goals. By voting “For” the proposals in the Annual Meeting proxy, we will be able to continue our progress,” concluded Mr. Grae.

Important Information

This communication may be deemed to be solicitation material in connection with the proposals to be considered at the Meeting. In connection with the proposals, the Company filed a definitive proxy statement on Schedule 14A with the U.S. Securities and Exchange Commission (the “SEC”) on August 31, 2022. Shareholders are urged to read the definitive proxy statement and all other relevant documents filed with the SEC because they contain important information about the proposals. An electronic copy of the definitive proxy statement is available on the Company’s website at www.ltbridge.com/investors and on the Company’s EDGAR profile at www.sec.gov.

Forward Looking Statements

With the exception of historical matters, the matters discussed herein are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding the anticipated growth in the demand for nuclear energy, the timing and outcome of research and development activities and other steps to commercialize Lightbridge Fuel™. These statements are based on current expectations on the date of this news release and involve a number of risks and uncertainties that may cause actual results to differ significantly from such estimates. The risks include, but are not limited to: the Company’s ability to commercialize its nuclear fuel technology; the degree of market adoption of the Company’s product and service offerings; the Company’s ability to fund general corporate overhead and outside research and development costs; market competition; our ability to attract and retain qualified employees; dependence on strategic partners; demand for fuel for nuclear reactors, including small modular reactors; the Company’s ability to manage its business effectively in a rapidly evolving market; the availability of nuclear test reactors and the risks associated with unexpected changes in the Company’s fuel development timeline; the increased costs associated with metallization of our nuclear fuel; public perception of nuclear energy generally; changes in the political environment; risks associated with the further spread of COVID-19, including the ultimate impact of COVID-19 on people, economies, and the Company’s ability to access capital markets; risks associated with war in Europe; risks associated with limited availability of conversion and enrichment services for nuclear fuel production; changes in the laws, rules and regulations governing the Company’s business; development and utilization of, and challenges to, our intellectual property; risks associated with potential shareholder activism; potential and contingent liabilities; as well as other factors described in Lightbridge’s filings with the Securities and Exchange Commission. Lightbridge does not assume any obligation to update or revise any such forward-looking statements, whether as the result of new developments or otherwise, except as required by law. Readers are cautioned not to put undue reliance on forward-looking statements.

A further description of risks and uncertainties can be found in Lightbridge’s Annual Report on Form 10-K for the fiscal year ended December 31, 2021, and in its other filings with the Securities and Exchange Commission, including in the sections thereof captioned “Risk Factors” and “Forward-Looking Statements”, all of which are available at <http://www.sec.gov> and www.ltbridge.com.
