PART I

ITEM 1. DESCRIPTION OF BUSINESS

Corporate History

Custom Branded Networks, Inc. ("CBN", "Custom Branded" or the "Company") was  
incorporated under the laws of the state of Nevada on February 2, 1999, under  
the name of Aquistar Ventures (USA) Inc. The Company was organized for the  
purpose of exploring for and , if possible, developing mineral properties  
primarily in the province of Ontario, Canada, through its wholly owned  
subsidiary, Aquistar Ventures Inc. ("Aquistar Canada"). Aquistar Canada was  
incorporated under the laws of the province of British Columbia, Canada, on  
April 13, 1995.

Initial business operations included the acquisition of various options to

search for mineral deposits on certain tracts of real property and to develop any deposits that had potential for commercial viability. All such options have now lapsed and Aquistar Canada is now a dormant entity as far as business operations are concerned.

On February 2, 2001, the Company acquired 100% of the issued and outstanding capital stock of Custom Branded Networks, Inc., a Delaware corporation in exchange for 25,000,000 common shares of the Company. The Company then changed its name to Custom Branded Networks, Inc. All current business operations of the Company are the business operations of Custom Branded Networks, Inc., the Delaware corporation which is the Company's wholly owned subsidiary.

#### Business Operations

The Company has been in the business of providing turnkey private label Internet solutions to businesses and private organizations that desire to affiliate with a customer base via the Internet. In this way, Custom Branded has sought to create for itself a recurring revenue stream through the sale of subscription-based services. Custom Branded has also attempted to sell individual components of its services to established Internet Service Providers ("ISP's") at pricing that would be profitable for both parties, including wholesale dialup port access and back-office services for ISP's.

However, even though the business plan of the Company has called for the Company to provide turnkey private label Internet solutions to businesses and private organizations that desire to affiliate with a customer base via the Internet, our business has not developed as rapidly as we had originally anticipated. To date, we have signed up one customer and the deployment of the Internet services for this customer has not occurred as of yet. It is uncertain at the present time whether we will be able to develop this business plan to commercial viability.

Mr. John Platt, our former CEO, left the employ of the Company in December, 2002. Since that time, we have not had an officer, director or employee experienced in the

2

private label Internet business. Since that time we have not been able to pursue our business plan and will not be able to unless the Company acquires new personnel with expertise in this area.

#### New Developments

On May 9, 2003, the Company acquired the rights to six mineral titles within the Turquoise Hill area of the South Gobi Region of Mongolia. The Company paid \$50,000 toward the acquisition of the mineral titles and issued 5,000,000 shares of common stock of the Company to complete the transaction. The shares will be delivered at such time as legal title to the mineral titles is delivered. Therefore, the Company is waiting for the vendor to make necessary legal arrangements to be able to transfer title to the properties before delivering the common shares.

Management is pleased with the acquisitions due to their close proximity to mineral rich deposits that have been recently discovered within the South Gobi Region. Preliminary reports have indicated that the Ivanhoe Mines Ltd. Turquoise Hill (Oyu Tolgoi) deposit within the Turquoise Hill area is one of the largest copper and gold porphyry deposits in the world. With Ivanhoe's proposed construction of an 80 km railway link from China to Turquoise Hill and with at least 7 km of the railway link running through or close to one of the mineral titles we have acquired, management is optimistic about this project. Proximity of our mineral titles to the Ivanhoe deposit does not assure our mineral titles will possess the same mineral qualities as the Ivanhoe deposit.

It is the intention of management to commence geological and geophysical testing immediately upon receipt of legal title to the mineral properties, with primary focus on pursuing and identifying any mineral occurrences within the project areas.

#### Competition

The e-commerce industry is intensely competitive. Many persons and entities are looking to the Internet for business opportunity, including many ISP's. CBN had hoped to compete successfully in this market through its business structure of being able to service the small as well as the large Internet provider.

#### Employees

At the present time, Mr. Paul G. Carter is the sole officer, director and employee of the Company.

#### Government Regulations

Due to the increasing popularity and use of the Internet, it is possible that a

number of laws and regulations may be adopted with respect to the Internet generally, covering issues such as user privacy, pricing, and characteristics and quality of products and services. Similarly, the growth and development of the market for Internet commerce may prompt calls for more stringent consumer protection laws that may impose

3

additional burdens on those companies conducting business over the Internet. The adoption of any such laws or regulations may decrease the growth of commerce over the Internet, increase our cost of doing business or otherwise have a harmful effect on our business and our business partners.

With respect to our possible mining operations in Mongolia, the Company will be subject to the mining laws and regulations of Mongolia as well as business laws of Mongolia generally. Because Mongolia is just beginning to develop many of its natural resources in a more free economy, it is uncertain how these business regulations will effect potential mining operations of the Company. It is likely that potential future dealings with this foreign government could prove to be very challenging.

#### Research and Development Expenditures

During the fiscal year ended June 30, 2003, we did not incur any research or development expenditures.

#### Subsidiaries

Custom Branded Networks, Inc., a Delaware corporation, through which we have conducted our Internet business is a wholly owned subsidiary. Aquistar Ventures Inc., a corporation formed under the laws of the province of British Columbia, Canada, is a wholly owned subsidiary which from a business standpoint is dormant at the present time.

#### Patents and Trademarks

We do not own, either legally or beneficially, any patent or trademark. There is little or no necessity to have patented technology in order to conduct our business over the Internet. This increases the ease with which potential competition can enter this industry.

#### ITEM 2. DESCRIPTION OF PROPERTY

Property located at 821 E. 29th, North Vancouver, British Columbia, Canada is made available to the Company by our president as an accommodation to the Company for its current minimal operations. The Company does not have an interest in any real property.

#### ITEM 3. LEGAL PROCEEDINGS

CBN is not a party to any legal proceedings.

#### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the share holders during the fiscal year ended June 30, 2003.

On the date of this filing, being September 29, 2003, the best bid price of our common shares is \$0.017 and the best ask price is \$0.030.

At June 30, 2003 there were approximately 60 record holders of CBN's Common Stock.

CBN has not previously declared or paid any dividends on its common stock and does not anticipate declaring any dividends in the foreseeable future.

There are no restrictions in our articles of incorporation or bylaws that restrict us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

(1) we would not be able to pay our debts as they become due in the usual course of business; or

(2) our total assets would be less than the sum of our total liabilities.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

PLAN OF OPERATIONS:

- - - - -

At June 30, 2003, the Company had cash of \$894. To sustain the business operations of the Company, the Company must obtain additional capital. The Company's current plans

are to borrow money as needed to sustain current operations. Since inception, the Company has executed \$1,000,000 in the aggregate principal amount of convertible notes. The Company has received \$882,719 in advances against the notes through June 30, 2003. The Company hopes to obtain additional advances against the notes in order to sustain the business operations of the Company. However, the holder of the notes is not obligated to fund the notes further and may not be willing to do so, in which event the Company will need to obtain funding from some other source.

During the fiscal year ended June 30, 2003, we incurred expenses of \$142,233.00. Of the \$142,233.00 in expenses incurred, \$50,000.00 was a payment toward the acquisition of six mineral properties in Mongolia. The decision by management to acquire these properties is a departure from the pursuit of continued development of the business plan of the Company to provide certain Internet solutions to businesses and private organizations. It is the intention of management to pursue avenues that will allow the Company to begin to investigate the potential for developing the mineral properties. As these possibilities develop, it is likely that the Company will abandon its Internet solutions business plan and focus on the acquisition and development of mineral interests during the next 12 months and beyond.

INDEPENDENT AUDITORS' REPORT

To the Shareholders of  
Custom Branded Networks, Inc.  
(A development stage company)

We have audited the consolidated balance sheets of Custom Branded Networks, Inc. (a development stage company) as at June 30, 2003 and 2002, and the consolidated statements of operations and deficit accumulated during the development stage, cash flows and stockholders' equity for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with United States generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at June 30, 2003 and 2002, and the results of its operations, cash flows, and changes in stockholders' equity for the years then ended in accordance with United States generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has suffered recurring losses and net cash outflows from operations since inception. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also discussed in Note 1. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

CUSTOM BRANDED NETWORKS, INC.  
(AN EXPLORATION STAGE COMPANY)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2003 AND 2002  
(STATED IN U.S. DOLLARS)

1. NATURE OF OPERATIONS AND GOING CONCERN

Custom Branded Networks, Inc. (the "Company") was previously engaged in the business of providing turnkey private label internet services to organizations throughout the domestic United States and Canada. During the year ended June 30, 2003, the Company became an exploration staged company engaged in the acquisition and exploration of mining claims. Upon location of a commercial minable reserve, the Company expects to actively prepare the site for its extraction and enter a development stage.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern.

As shown in the accompanying financial statements, the Company has incurred a net loss of \$1,351,419 for the period from April 12, 2002 (inception) to June 30, 2003, and has no sales. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of its mineral claims. Management has plans to seek additional capital through a private placement and public offering of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

2. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgment.

The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Consolidation

These financial statements include the accounts of the Company and its wholly-owned subsidiary, Custom Branded Networks, Inc. (a Nevada corporation).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(STATED IN U.S. DOLLARS)

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

c) Capital Assets

Capital assets are recorded at cost and are amortized at the following rates:

Office equipment - 20% declining balance basis  
Computer equipment - 3 years straight line basis

d) Income Taxes

The Company has adopted Statement of Financial Accounting Standards No. 109 - "Accounting for Income Taxes" (SFAS 109). This standard requires the use of an asset and liability approach for financial accounting and reporting on income taxes. If it is more likely than not that some portion of all of a deferred tax asset will not be realized, a valuation allowance is recognized.

e) Mineral Claim Payments and Exploration Costs

The Company expenses all costs related to the acquisition, maintenance and exploration of mineral claims in which it has secured exploration rights prior to establishment of proven and probable reserves. To date, the Company has not established the commercial feasibility of its exploration prospects, therefore, all costs are being expensed.

f) Financial Instruments

The Company's financial instruments consist of cash, accounts receivable, and accounts payable.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

g) Stock Based Compensation

The Company measures compensation cost for stock based compensation using the intrinsic value method of accounting as prescribed by A.P.B. Opinion No. 25 - "Accounting for Stock Issued to Employees". The Company has adopted those provisions of Statement of Financial Accounting Standards No. 123 - "Accounting for Stock Based Compensation", which require disclosure of the pro-forma effect on net earnings and earnings per share as if compensation cost had been recognized based upon the estimated fair value at the date of grant for options

awarded.

h) Loss Per Share

The Company computes net loss per share in accordance with SFAS No. 128 - "Earnings Per Share". Under the provisions of SFAS No. 128, basic loss per share is computed using the weighted average number of common stock outstanding during the periods. Diluted loss per share is computed using the weighted average number of common and potentially dilutive common stock outstanding during the period. As the Company generated net losses in each of the periods presented, the basic and diluted net loss per share is the same as any exercise of options or warrants would anti-dilutive.

i) Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of

The Company reviews long-lived assets and including identifiable intangibles for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceed the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

j) New Accounting Pronouncements

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statement No. 141 - "Business Combinations". The Statement requires that all business combinations initiated after June 30, 2001 be accounted for under the purchase method of accounting. The Company believes that the adoption of FASB No. 141 will not have a significant impact on its financial statements.

j) New Accounting Pronouncements (Continued)

In July 2001, the FASB issued Statement No. 142 - "Goodwill and Other Intangible Assets". The Statement will require discontinuing the amortization of goodwill and other intangible assets with indefinite useful lives. Instead, these assets will be tested periodically for impairment and written down to their fair market value as necessary. This Statement is effective for fiscal years beginning after December 15, 2001. The Company believes that the adoption of FASB No. 142 will not have a material impact on its financial statements.

In August 2001, the FASB issued Statement No. 144 - "Accounting for the Impairment of Long-Lived Assets" which is effective for fiscal years beginning after December 15, 2001. FASB No. 144 addresses accounting and reporting of long-lived assets, except goodwill, that are either held and used or disposed of through sale or other means. The Company believes that the adoption of FASB No. 144 will not have a material impact on its financial statements.

4. CONVERTIBLE NOTE PAYABLE

On January 31, 2002, the Company executed \$1,000,000 aggregate principal amount

of convertible notes due not earlier than January 31, 2009. The Company has received \$882,719 in advances through to June 30, 2003. The notes bear no interest until the maturity date, and interest at 5% per annum on any remaining principal balance after the maturity date. The notes are convertible, at the option of the holder, at any time on or prior to maturity into shares of the Company's common stock at a conversion price of \$0.05 per share, and each converted share includes a warrant to purchase an additional common stock share at an exercise price of \$0.05 per share. The warrants expire three years from the grant day.

4. CONVERTIBLE NOTE PAYABLE (Continued)

Because the market interest rate on similar types of notes was approximately 14% per annum the day the notes were issued, the Company has recorded a discount of \$576,078 related to the beneficial conversion feature. The discount will be amortized as interest expense over the life of the convertible notes, or sooner upon conversion. During the year, the Company recorded interest expense of \$45,192.

5. MINERAL PROPERTIES

On February 5, 2003, the Company entered into an agreement to acquire 100% interest in mineral properties located in outer Mongolia by making a cash payment of \$50,000 (paid) and issuing 5,000,000 common shares.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The law firm of Catanese and Wells has provided legal services to the Company for which it has been compensated by the Company in cash and stock valued at a total of approximately \$125,000. At the time the work was done, Mr. T. Randolph Catanese, a principal in the law firm was also a director of the Company.

Effective January 31, 2002, the Company, restructured its debt with OTC Investments, Ltd. ("OTC Investments") at 1710-1177 West Hastings Street, Vancouver, B.C. V6E 2L3. The restructuring was necessary to obtain additional financing from OTC Investments to stabilize the current financial position of the Company. The Company issued two convertible promissory notes (the "Notes") to OTC Investments. Each of the Notes is in the face amount of \$500,000. One of the Notes, however, is structured as a line of credit against which approximately \$382,719 has been drawn at the present time. The Notes replaced a convertible note then held by OTC Investments in the face amount of \$750,000. The Notes also documented additional financing that OTC Investments had extended to the Company over the \$750,000 amount. The restructuring allows OTC Investments to extend additional financing to the Company at OTC Investment's discretion until a total of \$1,000,000, or the full face amount of both of Notes is reached. At OTC Investment's option, the Notes, or any portion thereof, are convertible into common shares of the Company at the rate of \$0.05 of the principal balance of the Notes per common share. The conversion rate of \$0.05 is not altered by any reverse split of the common shares or any recapitalization or other roll back of the equity capital of the Company. At June 30, 2003, the

total advances received on the Notes totaled in the aggregate \$882,719.

ITEM 14. CONTROLS AND PROCEDURES.

As required by Rule 13a-14 under the Securities Exchange Act of 1934 (the "Exchange Act"), we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures within the 90 days prior to the filing date of this report. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Paul G. Carter. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting management to material information relating to us which is required to be included in our periodic SEC filings. There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to the date we carried out our evaluation.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.
